

English

The BFG

- Class reader
- Character descriptions

Until I met Dudley

- Questions and explanations
- Explanatory writing
- Own inventions

Cross-curricular maths

- Ordering dates and making a timeline
- Measuring wiring

Science

Electricity

- Electrical appliances
- Electricity safety
- Simple circuits and switches
- Electrical conductors and insulators

Design Technology

Electric quiz games

- Using simple electrical systems in a product – apply science learning.
- Design and make an electric quiz game

Inventors that have shaped the world

- James Dyson
- Sir Tim Berners Lee

Art

Pattern

- Investigating patterns in wheels
- Abstract pattern making

Computing

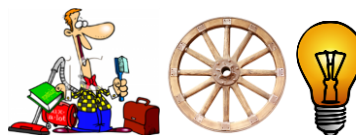

Multimedia – photo editing

History

Inventions and inventors in history

- Significant inventions and their impact on modern life

Incredible Inventions

PSHE

Dreams and goals

RE

What can we learn from religions about deciding what is right and wrong?

PE

Swimming, Gymnastics

French

Les animaux

Music

Pitch - singing

- Singing with different accompaniments
- Singing in parts
- Developing singing performance

Band project

- Developing playing technique and extend number of notes.

A Caring Community

We will consider our relationships with others in the school and wider community and further develop our ability to work productively together. We will also consider the historical community of inventors who have made our lives better as a result of their endeavours.

Locality & Environment

We will reflect on how significant inventions and innovations have impacted our locality and environment.

Music

We will become musical inventors as we compose our own accompaniments to singing. We will sing our times tables to help our learning across the curriculum. We will also continue to work together in the Year 4 'band project' and build our confidence to perform.
