

Linked learning theme: Year 4 – Summer 1

Computing – Creating media – Photo editing

Prior Learning

- The children will have edited audio earlier in Year 4. During this module, they will develop the knowledge and skills in editing image that they developed in Year 3 when creating stop-frame animations and when undertaking the Digital Photography module in Year 2.

Core knowledge

Learners will develop their understanding of how digital images can be changed and edited, and how they can then be resaved and reused. They will consider the impact that editing images can have, and evaluate the effectiveness of their choices.

Key skills

- Rotate and crop images.
- Use filters to create an effect on a viewer.
- Edit images through the use of cloning.
- Reason about the ethics of digitally editing images.
- Review the quality and suitability of edited images.

Learning Outcomes

- To explain that the composition of digital images can be changed.
- To explain that colours can be changed in digital images.
- To explain how cloning can be used in photo editing.
- To explain that images can be combined.
- To combine images for a purpose.
- To evaluate how changes can improve an image.
