

Linked learning theme: Ancient Greece

Spring term 2, Year 5

Geography – European map

Prior knowledge

In Year 3, children have used a European map to locate Rome as the capital of Italy and looked at which countries lie between Rome and Britain.

Core knowledge

- Europe is the continent that we live in.
- Greece is also in Europe.
- There are many countries in Europe and each has a capital city.
- Europe has some key topographical features such as the Alps.

Key skills

- Locate the countries of Europe (including Russia) and their capital cities.
- Identify some key environmental regions of Europe.
- Use maps, atlases and globes to locate countries and features studied.

Vocabulary

continent	topographical features
country	mountains
capital city	seas

Learning outcomes

- I can locate the main countries of Europe.
- I can identify the capital cities of Europe.
- I can use maps, atlases and globes to locate countries and describe features studied.
